

Update

Date: February 9, 2016
Subject: Revised Website

We have redesigned our website to give our Manufacturers and Customers an overall picture of our strengths, methods and policies. What you can expect from us once we engage in a business cooperation.

We are known and appreciated for our investment in new technologies (products) which we bring to the Dutch market. Several new technologies will improve present products and others are new to the market. We are proud to say that again in 2016 we will bring several new products to the Dutch market including atherectomy, thrombectomy and Renal preservation products.

We have expanded our Direct Sales Force to five full-time Sales Representatives. They are managed by Dirk Reemers, who recently has been promoted to Director of Sales and Marketing.

Please contact us for any further information.
